

1. Waterfront MB First Aid footnote specifies requirements 1 and 2a, d. However based on the included comment "that deal with First Aid and CPR", I believe the requirements listed should be Req. 1, 2a and 3a.

2. Astronomy MB comment, " Dependent on weather, this requirement can be done online at NASA and be made into a chart, there requirements must be done at home to get the MB at camp" is confusing. It's not which requirements are being referred to by the comment. If meant to reference the prerequisites, then weather shouldn't be an issue.

3. Cooking prerequisites lists 8a, but given the change in 2007, this should now just list it as requirement 8.

4. Wowoatam states a custom hat will be available for purchase to those who participate in the program for 3 days. However, this is a 2 day program.
